

Goals and Objectives

1. To create an atmosphere of Agapé, acceptance, and affirmation where youth will find musical challenge, spiritual safety, and a sense of belonging.
2. To build aural skills and good/healthy voices based on proper breathing, posture, breath support, vowel formation and voice placement.
3. To carefully listen to adolescent boys voices, check ranges, and explain the voice change process to them so that they will understand what is happening and be less frustrated with the process.
4. To teach repertoire which has sound Biblical and theological text and that is RELEVANT to today's youth.
5. To provide an opportunity to sing in traditional sanctuary worship, in a secular Variety Show performance, and in the Athens/Atlanta community for appropriate functions.
6. To provide an opportunity to tour annually and/or participate in a Choral Festival with a nationally known clinician.
7. *To have FUN growing in Christ, laughing together, singing as one.*
